

Coffs Harbour

12 March 2020

During the workshop you will be provided fundamental information about dementia and it's impact on the person, as well as learn strategies for communication and engagement.

Main topics include:

- Understanding major causes and symptoms of dementia
- How brain damage affects function and behaviour
- Effective engagement when visiting a person with dementia

Suitable for:

Volunteers supporting people in aged care, dementia care, or general community service.

This program is not suitable for professionals employed in the health or aged care sectors.

Time: 09:30am – 12:30pm

When: Thurs 12 March 2020

Where:

Curran Centre
2 Gordon Street
Coffs Harbour

Cost: Free

Morning tea provided
